

The 2002 Registry

<http://www.2002registry.com>

Welcome to the BMW '02 Series Registry

A tribute to the legendary BMW 2002, the car that put BMW on the map!

Dear 2002 Fans:

The BMW 2002 Registry contains user provided history, photos and VIN data on **several thousand** BMW '02 Series vehicles still in existence, carefully updated by their owners along with many photos of their cars. A large majority are still running over 30 years after they were built, some have gone on to the great car crusher in the sky.

These amazing vehicles were produced from 1966 to 1976 in various versions sold world wide.

Please join us if you are currently in possession of one of these historic vehicles, regardless of your location!

ABOUT THE REGISTRY DATABASE:

- ☐ [The registry database is a separate site you can access by clicking here. There are 1,000s of cars and photos of them for your viewing. If you have a car, please join us by registering your car and setting up an account.](#)
- ☐ **We recently upgraded the register with a bigger and faster server for more reliability.**

The 2002 Registry project is a non-commercial effort, a labor of love maintained by dedicated members and updated by the 2002 community at large, around the globe.

The 2002 Registry and the [Tii Register](#) have joined forces to reduce duplication of effort. The 2002Tii is an important part of the 2002 family and will soon celebrate it's 35th anniversary in the year 2007.

Register your Tii here now, and help us to keep track of the Tii's no matter what condition! (<http://www.thetiiregister.com>) to bookmark the site.
